DAILY PITTSBURGH GAZETTE.

THURSDAY AFTERNOON, DEC. 12, 1833.

THE REMOVAL OF THE DEPOSITS.—This most high handed and arbitrary measure has excited very general and decided indignation in the Old Dominion. Governor Floyd, we believe, only expresses the opinion of the great majority of the freemen of that commonwealth, when he denounces this act, in the extract which we publish to day.

A short time since, we did think that General Jackson might do any thing with the approbation of a majority of his partizans. The signs, in Virginia and the south, are decidedly encouraging.

BANK OF THE UNITED STATES.—We have received the Report of a Committee of the Directors of the Bank of the United States, to whom was referred, on the 24th of September, a paper, signed "Andrew Jackson," purporting to have been read to a cabinet, on the 18th Sept.; and also another paper, signed "H. D. Gilpin, John Sullivan, Peter Wager, and Hugh McElderry," bearing date August 19th, 1833, with instructions to consider the same, and report to the board.

The Report is a very long, able, and satisfactory refutation of the numerous calumnies and falsehoods which have been poured forth against that institution.

We have already published General Jackson's reasons for the removal of the Deposits, and the Report of the Government Directors. Having published these attacks upon that institution, we feel bound, as a mere act of justice and fair dealing, to publish this reply, and yet its length renders its publication very inconvenient. We will, however, make an effort to perform this act of justice, and will commence its publication in a few days.

THE MAIL.—We publish, to day, the complaint of a "Subscriber," in relation to the repeated failures of the Mail, we know not where the fault lies, but certainly there is a great defect somewhere. The National Intelligencer, within the last ten or twelve days, has failed to arrive, as often as four or five times.—That paper, of the 9th inst., came to hand this morning, but that of the 7th inst. has not yet reached us.

From Philadelphia we, this morning, received neither the Commercial Herald, the American Sentinel, nor the Chronicle—the National Gazette, being an evening paper, was not due, or expected, and of course not received.

CANALS AND RAILWAYS.—We publish, to day, an article, from a Glasgow paper, in relation to the merits of Canals and Rail Roads, which will be found highly interesting. The comparison instituted is, with Rail Roads under their most favorable circumstances.—It is between Canals and Railways, with locomotive engines, with passenger cars. It has generally been admitted that, for the conveyance of heavy articles, where speed was not very important, Canals were preferable; but here it is shown that, even at a high speed, Canals afford the cheapest mode of transportation. The article is worthy of attentive consideration.

For our own part, a perusal of it has only strengthened our previous impression, that Rail Roads are the best possible mode of transportation, where Canals cannot be made.

For the Gazette.

MR. CRAIG—Is there no way in which we can have redress for the irregularity of the mails, or the evil corrected? The uncertainty of the receipt of papers from Washington city, for some time back, is such, that it renders the papers worthless.—Some times they do not arrive for three or four days after they are due. The daily National Intelligencer, of the 7th, has not come to hand, as yet.—Where the fault is we do not know—but there is one thing certain: that the Post Office Department is badly managed, somewhere, and it is high time the public should enquire into it, and have redress. A SUBSCRIBER.

Governor Floyd, of Virginia, was one of the most active and influential of the adherents of Gen. Jackson—latterly he has abandoned him. The following is an extract from his late message to the Legislature of Virginia.

The Governor seems to speak the sentiments of the Old Dominion; the Richmond Whig says that disapprobation of the removal of the deposits is almost universal in that state.

"I now lay before you a copy of an arrangement or agreement entered into on the 22d day of October last, between the Bank of Virginia and its Office of Discount and Deposit at Norfolk, and the Secretary of the Treasury Department of the United States, and ask your earliest attention to this subject, so vitally connected with the prosperity of our citizens, the interests of this commonwealth, and the success of all our undertakings.

"The constitutionality of the Bank of the United States, in this case, is not a matter of discussion; and every citizen is entitled to his own opinion on that subject, as the States have not thought it necessary or expedient, as sovereigns, to express an opinion in relation to it. Legislatures whose powers are limited, it is true, have done so; but they are the agents of the sovereign people, who, when they exercise their power, which has no limit, do it in a convention of themselves. Therefore, whatever opinion may be entertained by the Legislature or People of a State, we are bound to regard that Bank as entitled to all the rights and privileges conferred upon it by law, until, a competent tribunal shall declare its charter inconsistent with the provisions of the Constitution of the United States.

"Without any intention to refer to the constitutionality of its creation, we must now regard the interests of the citizens of this Commonwealth, which are greatly involved in this transaction; and may lead to lasting embarrassments and injury, and may even affect the interest of the Commonwealth, so far as her pecuniary connection exists with the Banks of this State.

"This arrangement is of a character which will enable that Department to carry on a system of espionage throughout the Union, and ultimately fill all our moneyed institutions which partisans and parasites; looking to the interests of the Federal Administration, rather than that of the Commonwealth, and the due accommodation of the mercantile part of the community, and the farming and planting interests of the country, which will soon subject the whole moneyed operations of the country to the will and control of the Federal Administration. By the system now organizing Banks are injured or sustained by the value which the President's Secretary thinks proper to give to their notes; the notes of the Southern or Western Banks, are put up or down, as he may order them to be taken or refused in payment of public dues. The agreement thus entered into, may be dissolved, and the Bank "discharged from the service of the Government" at his pleasure—and, I presume, new arrangements made with other Banks, whose flexibility may be more obliquely useful.

The effect of this system will be so ruinous to the interests of the country, particularly the Southern and Western States, that no effort ought to be spared to defeat it, and avert the calamity. All, the money—all the arrangements of commerce, the value of the paper of all the Banks of the United States, and, in some measure, the price of all the products of agriculture, will be at the mercy of the President, or his Secretary, subject to their will.

"By the removal of the deposits of the Bank of the United States, to Banks elected by himself, the ultimate effect must be to give to the paper of the favorite Banks, a greater value than other Banks, and ultimately substitute their paper to the exclusion of the other Banks—since it will be sustained by the Department of the Treasury, and therefore, more current. This will place the whole commerce of the Southern and Western States, and all the debt of those States, at the mercy of two or three Banks in the city of New York, managed by friends and favorites of the Secretary of the Treasury. A very large portion of the imports made into the United States, is entered and paid at the port of New York, perhaps, many millions annually, of the whole revenue of the Union. This sum is deposited in those Banks, managed by merchants or other friends in that city, who determine to substitute the notes of their Banks for those of the United States Bank, and lay the whole mercantile community of the United States under contribution, who, for self preservation, are compelled somewhat to aid the scheme, and in doing so, injure the State Banks, which necessarily lessens the price of products when brought to market by the farmers."

Our readers in Virginia, in Maryland, and the District of Columbia, and we hope many others, will see, with pleasure, the interest which the people of the Western part of Pennsylvania, as well as in Ohio, begin to take in our great Canal. The public proceedings at Pittsburgh, which we publish to day, afford us another gratifying assurance that the magnificent dream of the far seeing Washington, will yet be realized, in the establishment of a water communication from Chesapeake Bay, through the Valley of the Potomac, to the Mississippi, and the remotest Lakes.—*Nat. Intel., Dec. 9.*

PENNSYLVANIA LEGISLATURE.

HOUSE OF REPRESENTATIVES.

Friday, December 6.—A letter from the State Treasurer was received and read; accompanied with a report on finance, which was read, and 3,000 copies in English, and 1,000 in German were ordered to be printed.

A considerable debate arose on a motion to reduce the number of English copies from 3 to 2,000, in which Messrs. Keating, Thompson, Stevens, Walker, and Wallace took part. Mr. Stevens attacked the canal system, and said that fallicious statements were contained in the report, and he was opposed to deceiving the people and paying for it with their own money.

Messrs. Harper, Thompson, Rheiner, Jones, Paynter, Bennet, Morris, and Mackey, each petitions from their respective districts for a convention to alter the constitution.

Mr. Robinson, one for aid to the Butler and Pittsburgh turnpike road; also one for the incorporation of Lawrenceville in Allegheny county; also one from Ebenezer Kerr, for a supplement to a law for his relief.

Mr. Love, one for a new county out of parts of Washington, Westmoreland, Fayette, and Allegheny; also one for aid to Washington college.

ELECTION OF SENATOR.

The following is the vote on the last ballot:—

For Samuel M'Kean.—Messrs. Baker, Boyd, Breck, Cunningham, Fullerton, Geiger, Hassinger, Hopkins, Newhard, Penrose, Read, Rogers, Sangston, Smyser, Stoever, Taylor, Ringland, Alison, Anderson, Barclay, Barnhart, Barrett, Bennett, Bertels, Bispham, Boileau, Bratton, Brodhead, Cocklin, Crawford of Lycoming, Daniel, Donnell, Eneix, Frailey, Goodman, Guirey, Harper, Harvey, Heston, Hilands, Holcomb, Irish, Johnston, Jones of Susquehanna, Kerr of Butler, Love, Mather, M'Cleane, M'Clelland of Fayette, M'Clellan of York, M'Creery, M'Elwee, M'Keehan, Miller, Morris, Paynter, Piatt, Rambo, Rheiner, Schœner, Smith of Bradford, Snyder of Berks, Snyder of York, Stokes, Thompson, Tyson, Wallace, Watson, Weigand of Philadelphia, Weygandt of Northampton, Westbrook, White, Findlay.—74.

For William Clark.—Messrs. Hays, Hibshman, Jackson, Mechling, Smith, Ayres, Banks, Clarke of Beaver, Clarke of Huntingdon, Connelly, Cromwell, Erb, Grim, Hipple, Hoffman, Maclay, Mitchell, Noble, Patterson of Adams, Patterson of Lancaster, Rankin, Shaffer, Sharon, Stevens, Strohm, Walker, Weida, Will.—19.

For T. H. Crawford.—Messrs. Diekey, Fore, Kern, Klingensmith, M'Cullough, Petriken, Fornance, Gross, Irvin, Jones of Montgomery, Kerr of Allegheny, Kline of Berks, Kline of Columbia, Mathiot, M'Dowell, Moorhead, Robinson, Scott, Smith of Chester.—19.

For Adam King.—Messrs. Middlecoff, Crawford of Franklin.—2

For James Buchanan.—Messrs. Krebs, Matheys, Patterson of Armstrong, Patterson of Washington.—5.

For Garrick Mallary.—Messrs. Keating, Lacock, Stacey.—3.—*Penn. Intel.*

RAILWAYS AND CANALS.

Of late it has been held out to the public, as an undoubted proposition, that the swift conveyance of boats along Canals, is impracticable; or, if practicable, that it would be destructive to the Canal banks; and that the swiftest conveyance along Railways is much cheaper than any Canal conveyance. By innumerable paragraphs in the newspapers, and articles in the periodical publications, the above proposition has been maintained to have been completely ascertained by engineers, and men of science, who, it has been alleged, have demonstrated, upon mathematical principles, and from the laws of matter and motion, that the most attainable and profitable speed of boats on Canals cannot exceed three miles an hour.

The following facts, however, will prove to every one of common sense how egregiously these engineers and men of science have been mistaken, and how much the public have been misled on these points.

First—Three years' experience on the Paisley Canal has proved that passengers can be conveyed along Canals, in light boats, and roomy and comfortable cabins, at the rate of ten miles an hour, without damage to the canal banks, at fares of one penny per mile in the best cabin, and three farthings per mile in the steerage. Let these fares be compared with the expense of carrying passengers on the Liverpool and Manchester Railway. The fares in the best Railway Coaches are nearly three times as much as those in the best cabin of the canal boats, and the very lowest fare on the Railway, at a much reduced speed, is three half pence per mile, in an open and uncovered wagon, exposed to wind and rain, and the steam and smoke of the engine. This is just *double* the fare in a covered cabin by the Canal boats, going at the rate of ten miles an hour.

It must not be imagined that such an excess in the expense of Railway traveling, goes into the pockets of the Railway proprietors, for such is not the fact. By the latest report of the Manchester and Liverpool Company, the carriage of *each* passenger costs the Railway Company, themselves, 2s. 10 1-2 d. for a distance of 30 miles. This alone amounts to upwards of one penny per mile, before the Railroad Company get any return for the use of the Railway. The *bare outlay* on the Railway is, indeed, nearly 50 per cent. higher than the *total fare* on the Canal.

A short calculation will make this evident—the average outlay in conveying each passenger by the Railway, is the above sum of 2s. 10 1-2d. for 30 miles, which is per mile, 1d. 3-20ths.

The proportion of best cabin and second cabin passengers on the Paisley canal, are one fifth of best cabin passengers at 1d. per mile, and four fifths of second cabin passengers, at three farthings per mile. The average total fare on the Canal, is, therefore, 16-20ths of a penny per mile, 0d. 16-20ths —Being seven twentieths of a penny per mile, or very nearly 50 per cent. less than the bare outlay on the Railway. The Canal Companies can thus afford to carry, and actually do carry, passengers, at the speed of 10 miles an hour, at rates that would be not only unprofitable, but actually ruinous to Railway Companies.

But, moreover, the expense to the Railway Company of carrying passengers, has, according to the Reports of the Directors, been regularly increasing; whereas the expense to the Canal Company has been as regularly decreasing.

The natural consequence of these facts has been the progressive falling away of passengers on the Liverpool Railway, and the progressive increase of passengers by the Paisley Canal, as will appear from the following table, showing the average number of daily passengers on the Railway and on the Canal:—

	Railway.	*Canals.*
Average number daily in 1831,	1,297	258
do. do.	1832, 977	476
Do. in first 6 months of	1833, 947	687

Being a *decrease* of 300 in the average daily number on the Railway, and an *increase* of 429 in the average daily number on the Canal.

The increase of passengers, by similar swift boats lately established on the Preston, Lancaster, and Kendal, and Forth, and Clyde, and Union Canals, has been equally rapid, or rather more so; and on the Paisley Canal, during the months of July and August, the daily average was upwards of 1,000 passengers.

This result is not attributable merely to an increase in the number of boats, or in the number of trips, but in a great measure to the fact of the boats being better filled in consequence of the increased comfort, speed, and economy of canal conveyance, as will appear from the following table of the average numbers of passengers on each trip on the Paisley canal:—

DURING				
1830,	4 trips daily,	25 passengers	each trip	
1831,	8 do	32 do	do	
1832,	14 do	34 do	do	
DURING THE FIRST SIX MONTHS OF				
1833,	18 do	45 do	do	

These light and swift iron passage boats have not yet been established on the different canals, and river navigations, between Liverpool and Manchester. When this takes place, the progressive decrease of passengers by that Railway will assuredly go on more rapidly than ever, and the question between Railway and Canal conveyance will be settled beyond all doubt or dispute.—*Glasgow paper.*

BOSTON, Dec. 5.

Latest from Smyrna.—We have received by brig Gold Hunter, which arrived at this port yesterday afternoon, files of Smyrna papers to October 6, which is some days later than any before received.

On the 2d Oct. the birth day of the King of Sardinia was celebrated at Smyrna by the Sardinian Consul and others of his nation. At ten o'clock in the morning religious services were performed at the church of Saint Mary, and at noon a salute of twenty one guns was fired by vessels of war of different nations lying in the roads. In the evening a large number of Sardinians dined at the Consulate.

On the 4th Oct., a similar ceremony was performed for the Emperor of Austria. At the rising and setting of the sun, the Austrian vessels of war fired a salute of 21 guns. The next day the same was repeated 3 times, and at noon the foreign vessels of war in port also saluted.

The Bavarian Ambassador to King Otho arrived at Nauplia on the 17th of September.

The French brig of war Dragon sailed for Constantinople on the 30th September, to wait the orders of the French Ambassador.

Piratical boats have appeared in the Archipelago.—The government of King Otho, hearing of this, and that a Greek vessel had been attacked and robbed,—despatched proper force and had them arrested.

We lay before our readers, to day, the Report of the Committee, appointed at the late meeting of the Warren Convention, to whom was referred the responsible trust of deciding upon the best rout to be adopted for the connexion of the waters of the Pennsylvania with those of the Ohio Canal. The Mahoning rout was adopted, it will be perceived for the good and sufficient reason that the supply of water was much more certain on that than on the Sandy rout. We think that the choice has been judicously made.

This important improvement—important particularly to Pennsylvania, will now, no doubt, be speedily commenced and vigorously prosecuted. The deliegates from Philadelphia, are of the opinion, that the amount of stock sufficient to complete the enterprise will be readily subscribed in that city. The facilities which the opening of this communication will present to transportation of commodities will be sensibly felt in Pennsylvania, particularly by the manufacturers of Pitsburgh. Heretofore, much of the heavy machinery, for Steam Boats, built on the Lake, has been brought from that city by land, at great expense. The transportation of the engine and machinery for Steam Boat Washington, last number, cost some two or three thousand dollars. We have evidence almost daily of the advantages which such an improvement would be to that State. It was but the other day that eight or ten teams passed our office, with machinery, and other products of her industry. If her manufactures, notwithstanding the inconveniences and expense attending the present mode of transportation, find a market in this section of country, what may be expected, when the great facilities which such a communication afford, are presented? The result can more easily be conceived than expressed.—*Cleveland Herald, Dec. 7.*

It was stated, by Mr. Calhoun, in the Circus, on Friday night last, that a party was formed, or at least a design entertained at the North, to effect the removal of the white population from the Southern States! *Credat Judæus Appella!* which means in the vernacular, "You may tell it to the marines, but the sailors won't believe it."

It was stated on the same occasion by Governor Hayne, that so far from nullification having impoverished the State, or even rendered additional taxes necessary, (as the unionists had been silly enough to imagine,) it had actually left the treasury a balance of more than 50,000 dollars, over and above the current annual expenditures. The Governor forgot to mention, however, that this extraordinary financial result was wholly to be ascribed to the very opportune repayment by the General Government of a large sum of money, on account of expenditures patriotically made by S. Carolina during the last war. It is painful to reflect that money once nobly laid out in defence of the U. States against foreign invasion, should, when repaid, be dedicated to the unhallowed purpose of warring against the U. States. The Governor, in the course of his remarks, mentioned that his military arrangements during the nullification crisis, had been so admirably planned, that within twenty four hours after Charleston should have been invested, 1,000 volunteers from the country would have been embodied within her limits, and an additional thousand per day, until the number was swelled to 20,000, "to keep the tories in order," and repel the myrmidons of Uncle Sam. We must confess that our estimate of Governor Hayne induced us to believe that he would have been above indulging in such undignified slang against the Union minority in this State,—his position as Governor of this State should have forbidden him thus to give countenance to a mere trick of party, intended to fasten a false odium on men as honorable and high minded as himself.—*Charleston Courier Nov. 26.*

From the United States Gazette.

In the reasons for the removal of the government deposits, from the bank of the United States, I find the following words:

"And by agreement among themselves to honor each others' notes and drafts, they are providing a general currency at least as sound as that of the Bank of the United States, and will afford facilities to commerce, and in the business of domestic exchange, quite equal to any which the community heretofore enjoyed."

The Secretary having thus officially announced that the notes of the state banks selected for the keeping of the public money, would honor each others' notes, and afford facilities equal to those heretofore enjoyed under the practice of the Bank of the United States, a deposit of a few hundred dollars issued by the Bank selected to receive public money at Richmond, was offered at the Girard Bank in this city, and *refused*. The notes in question would have been cheerfully taken by the Bank of the United States, whilst they held the deposits, and probably have been held by that institution until the necessities of the government required the money to be paid in the vicinity of Richmond. We now have the singular case presented, of a Secretary of the Treasury declaring that his fiscal agents will perform certain services for the community, and one of those agents, four days after the declaration, declining to render them. Has the Secretary made a bargain with the banks that is not understood according to his reading of it, or are they, as great monied corporations, possessed of so much power already as to put him at defiance? F.

Report of the Secretary of War.—The annual communication of the Secretary of War is strictly a business paper, without any flourishes of rhetoric. The condition of the *skeleton* of an army, which it is the policy of our government to preserve, is satisfactory. One new regulation is spoken of, which meets our hearty approbation, viz: *the abolishment of all Sunday parades in the service.*

The Secretary suggests the establishment of a fund for the relief of invalid officers, and the widows and orphan children of officers dying in the service, to be created by a regular and moderate deduction from the pay of each officer. The suggestion is a valuable one. But ought not the pay to be increased, before such an assessment is made? Our officers receive but a beggarly allowance; and can ill afford a deduction. Let the fund be created, however—by the Government, if it has any soul—or by the officers themselves, if it has not. A large portion of the report is devoted to Indian Affairs. Measures for their gradual but certain expulsion to the "antres vast and desarts idle" of the Great West, are in continued progress.—*New York Com. Adv.*

Robespierre on Duelling.—The most ferocious monsters, and blood thirsty, unprincipled tyrants, have sometimes uttered sentiments of wisdom and virtue which deserve to be recorded in letters of gold. *Robespierre* once said, in the National Assembly of France, while haranguing against the vile practice of Duelling: "*What can be greater in human nature, than to see a man render himself superior to insult !!*

Census of Males and Females.—It is a curious fact that the United States differ from most other civilized countries in having a population of males greater than that of females. The proportion, when last ascertained, was 3,993,053 to 3,886,657; exclusive, it is believed, of the army and navy, which would considerably swell the majority. In France, the proportion is the other way—about 17 to 16 in favor of females. Several other localities give the following result:—

	Males.	Females.
Sweden	1,176,957	1,288,099
Naples	2,423,295	2,628,967
England	5,483,579	5,777,758
Wales	350,487	366,951
Scotland	983,552	1,108,904

The above estimate for Great Britain on its sailors and soldiers, but including those classes, the majority of females is still over 117,000, exclusive of Ireland. The explanation of this difference noted between our country and others is, simply, that the waste of life by war, unhealthy or illegal employments, is less here than abroad—added to the fact that a majority of the emigrants to this country are males. Hence there is a majority of the latter also in the *new states*, and a majority of females generally in the old. There are more of the former *born* all over the world than of the latter. More males die in childhood, but at 15 the sexes are said to be about equally balanced.—*Boston Journal.*

Operation of the New System.—The Norfolk Herald contains the following account, which it would be well enough for members of Congress to notice, inasmuch as they may chance to suffer a small deduction from their *per diem* and *mileage* account.—*U. S. Gaz.*

"*Communication.*—The United States' troops, which left Old Point, a few days since, were paid in the Bank of Virginia notes: and these poor fellows had to pay *twelve and a half cents in the dollar*, at the moment of embarking to serve their country, to procure U. S. Bank notes, that would be of use to them when they should arrive south—this, too, from a pittance of six dollars per month.

Saxony Wool.—To the late King of Saxony, when Elector, is due the merit of having first brought the breed of Spanish Merino sheep into Germany, which has since transferred the valuable trade in fine wool almost wholly from the Spanish to the German soil. From the period of its first introduction until 1814, when Europe once more began to enjoy the blessings of a general peace, this wool was gradually, although slowly, spreading itself over the surface of the kingdom of Saxony; but when the continental trade was thrown quite open, by the events of the short campaign of 1815, and the minds of men were set at rest by the final catastrophe of Napoleon, the Saxon wool dealers began to open a regular trade in the article to England, and they soon discovered the real value of this new branch of German commerce. In the first year, viz:

In 1814, there were imported into England only 3,593,146 pounds; in 1819, 4,557,933; in 1824, 15,432,657; in 1828, 23,110,882. This prodigious increase in the demand for German wool naturally excited the emulation of the States lying contiguous to Saxony; and the flock masters of that kingdom carried on, for a considerable period, a very prosperous trade in rams and ewes with the land owners of Silesia, Bohemia, Austria, and other parts, who were desirous of changing the nature of their flocks to this more profitable breed. All the superabundance of grain, which had no external vent to carry it off, was given to the sheep, in order to accelerate their approach to the maximum degree of fineness of which their wool was susceptible; thus actually creating a profitable consumption for their corn, through the eagerness exhibited in England to obtain a superior quality of wool.—*Quar. Journal.*

Pliny gives the following character of true glory—"By doing what deserved to be written, and writing what deserved to be read; and making the world happy and better for their having lived in it."

A grain of musk will, it is said, scent a room for twenty years, and at the end of that period will have lost little of its weight.

Extracts from the Philadelphia Market; ending Saturday Evening, December 7, 1833. Collected for the United States Gazette.

COTTON—Arrived this week from Savannah 50 bales—the following sales have been reported since our last: 20 bales Louisiana new crop 16 1-2 cts., 4 mths.: 267 bales Virginia and Uplands at 14, 14¼, and 15 cts., 4 mths.; 100 bales of Uplands at 15 1-2 a 15 3-4 cts., 4 mths.; and a lot of S. Carolina at 14 1-2 cts., 4 mths.

COFFEE—The receipts of coffee have been light, and but few sales have come to our knowledge; 200 bags Rio at 12 1-8, 12¼, and 12 1-2 cts., 4 mths., and 50 bags do. at 12 cts., and 100 bags Laguira at 12 3-4 cts., 6 mths., and by auction, a small lot of Cuba at 12 1-2 cts.

FLOUR AND MEAL—The sale of superfine flour, since our last report, as far as ascertained, amount to about 3,000 bbls., part of which was taken, in the beginning of the week, at $5 62 1-2; a reduction, however, was submitted to since Wednesday, and the sales have been to the extent of 2,000 barrels at $5 50; other transactions took place on Saturday, which were not fully reported. The last sale of rye flour was 150 barrels at $3 62 1-2; 230 hhds. of corn meal has been sold at $13 50, and 200 bbls. do. at $3.

SUGAR—50 hhds. new crop Orleans sugar at 8 1-2 a 9 cts., quality, *good* to *prime;* a small lot of white Havana at 10 3-4 cts., 4 mths.; 168 bbls. N. O. by auction, at $5 50 a $7 30, and 32 boxes brown Havana at $8 10 a $8 50.

TEA—A sale of 170 boxes imperial tea at 82 cts., 6 mths.

WOOL—The stock on hand is very light, and the only sale reported is a small parcel of full blood at quotations.

IMPORTS—Sugar, 455 barrels and 468 boxes; tobacco, 207 bales, 8 bbls., and 28 hhds.; 650 boxes lemons; 100 bags coffee; 638 kegs, 50 qr. casks, 60 half do., 3,151 boxes, and 652 half boxes raisins; 16 hhds. molasses; 1,105 chests tea; 50 bales cotton; 6,810 bushels salt.

FAIRBANK'S PLATFORM SCALES.

THESE scales are constructed upon an improved principle; are fitted up with great care by the manufacturers, and warranted to weigh with accuracy from half a pound to 12,000. Being placed in, and forming part of, the floor, the process of weighing is performed with ease and facility, while the space they occupy may be improved as a passage way or for other purposes.

The construction of these scales is such that they are little liable to derangement of wear, and their perfect operation will be guaranteed for any reasonable length of time.

The usual objection, that a new method of weighing cannot be safely entrusted to unskilful hands, is obviated by the use of the improved BALANCE, concerning which are the following remarks in the Journal of the Franklin Institute, of the state of Pennsylvania, for the promotion of the Mechanic Arts, for June, 1833. (Edited by Thos. P. Jones, M. D., late Superintendent of the Patent Office, at Washington, Professor of Mechanics in the Franklin Institute, &c.

"The Messrs. Fairbanks, some time since, obtained a patent for a Platform Weighing Machine, and this mode of adjuating and graduating the Beam of the Balance, and the weights, was devised by them with a view to its employment with the before mentioned machine. We have had an opportunity of examining one of their balances, and have been much pleased with it: this examination, however, was not necessary to the conviction that it possesses a just claim to the character of a real improvement, the whole arrangement being so simple as to enable any person to perceive that it is well adapted to the purpose contemplated, that of facilitating the business of weighing, and more especially of heavy articles."

The subscriber, as Agent, will receive orders for the above Scales, which will be made in this city to order. They can be seen at his Warehouse, No. 84, Front street.

Nov. 8, 1833. MOSES ATWOOD.

SALE OF REAL ESTATE.

THE Subscribers, Trustees of the New Philadelphia Society, at Phillipsburgh, Beaver county, Pennsylvania, offer for sale the following property, to wit:

1	tract of land	containing	330 acres
1	do	do	330
1	do	do	67
1	do	do	7
1	do	do	40

other lots, containing about 6

The above lands lie in one body, fronting about two miles upon the Ohio river—immediately opposite the mouth of Big Beaver creek, and the Beaver Division of the Pennsylvania Canal. The land is rich, and a part of it under a high state of cultivation—its location pleasant and healthy. The improvements upon the same are valuable, including the town of Phillipsburgh, late the residence of Count Leon, and the New Philadelphia Society. The town contains about 40 Dwelling Houses, now in order; some of them brick houses and two stories high. A large and spacious Hotel, a Store house, Church, a number of Shops, for mechanics, Stables, Barns, and other out houses. Also, two large new buildings, lately erected, but not yet finished, one of brick, the other of frame (the latter suitable for a manufactory) a very extensive public garden, and also fruit trees of various kinds. The property has also attached to it the right of a ferry across the Ohio, which is valuable, and becoming more so every day.

The above property is situated in the midst of a wealthy and prosperous country, distant about 28 miles below Pittsburgh, and one mile from Beaver, the seat of justice for Beaver county—and having a view for many miles up and down the Ohio, and of the country to a great distance around.

The subscribers are confident in saying that few situations could be found, presenting greater facilities to the farmer, mechanic, the manufacturer, and others—a soil rich and productive—the neighborhood abounding in coal—well timbered and watered, and, by means of the Pennsylvania Canal, and steamboat navigation, a cheap and ready conveyance to market, and a communication with other places is ensured.

The property is susceptible of divisions into farms, or for the location of new towns, or for the extension of the present one.

Should it not be sold on or before the first day of January next, it will then be offered at public sale, upon the premises, to the highest and best bidder.

It will be sold in a body, or in parcels, to suit purchasers.

Terms of sale will be reasonable.

Information can be had by enquiring of the subscribers, two of whom live in the neighborhood, and one on the premises.

WILSON & SMITH, from N. York,

RESPECTFULLY inform the citizens of Pittsburgh and the neighboring towns, that they have commenced the manufacture of the above beautiful and elegant article, so much admired and worn throughout Europe, and the principal cities in the United States.

W. & S. beg leave to observe, that, after various experiments, they have at last succeeded in bringing this Hat to the highest state of perfection, and they can assert, with confidence, that in point of color, lightness, elasticity, durability, and general beauty of appearance, they cannot be surpassed by the most expensive Hat that is made. Gentlemen are invited to call and examine them, and judge for themselves.

Wholesale Dealers supplied at the same prices as in the New York markets.

DOCTOR ROBERT'S

☞*WELCH MEDICAMENTUM.*☜

FOR the cure of Dyspepsia, Liver Complaints, Jaundice, Cholic, Fever and Ague, Dysentery, Headach, Loss of Appetite, Flatulence, Hypochondria, Hysterics, Dropsical Complaints, and Heartburn, It also prevents all Bilious disorders, and removes habitual Costiveness, Asthma, Strangury, Gravel, Rheumatism, Gout, and Impurities of the Blood.

A person who uses this Medicamentum will not require the use of the lancet, or any means of the healing art. It restores and revives the animal spirits, invigorates the system, removes nervous tremors, obtunds rheumatic and anthritic pains, and prevents their return. It cleanses the stomach of all morbid humors, which cause indigestion, acidities, headach, and lowness of spirits; cures all bilious disorders, and all cholics of the stomach and bowels, almost immediately; inspires cheerfulness; gives comfort to the dropsical; takes away palpitation of the heart; gives circulation to the blood; restores bloom to the sallow or sickly cheek, and plumpness to the meagre habit; purges without pain, and banishes all cause of fever of every kind. It acts on the stomach, that great reservoir of the human system, a diseased state of which causes all diseases. No alteration in the usual habits of life is required, but the abstaining from distilled ardent spirits.

CERTIFICATE,

From Rev. Derick Lansing, D. D., Pastor of the Second Presbyterian Church in Utica.

UTICA, Jan. 6, 1830.

To Dr. Hitchcock.—Dear Sir: I have always been one of the number of those who have placed little confidence in *nostrums* or *specifics*, and for this reason, although I saw your advertisement of the Welch Medicamentum, I could not bring my mind to consent to use it. My sufferings, from indigestion, during the past summer, were so severe, as materially to affect my comfort, and my capacity for usefulness. I have reason to thank you, sir, that, on hearing of the state of my health, you kindly sent me your Medicamentum. I have taken it faithfully, and with entire success. I have not been visited with one of those turns of distress, which before were weekly periodical, since I began to take your valuable medicine. Could I receive the same relief which I have hitherto experienced, on condition of taking it for life, I should cheerfully comply with such condition. Your's, very truly, D. C. LANSING.

ANTI-DYSPEPTIC ELIXER.

ONE of the most agreeable and efficacious Medicines ever discovered for the permanent cure of those chronic states of derangement of the stomach, constituting that miserable disease called Dyspepsia.

The basis of this Elixer s vegetables, and perfectly innocent in its operation; it destroys that sour state of the stomach, the instant it is taken, and stops the morbid secretion, by giving strength to the muscular fibre of that important organ, by which means the peristaltic motion of the intestines is increased, and the costiveness obviated; a new action is given to the system, which puts an end to a train of distressing nervous sensations.

Another form of the disease in which the Elixer is admirably calculated to relieve, is the decline of fever, where the stomach will not bear the ordinary strengthening medicines indicated in such cases, it has the surprising effect of giving vigor, and restoring the natural secretions of the body, without increasing the febrile state. Not the least danger is to be apprehended from exposure to cold, while under the use of this medicine, nor will it interrupt necessary employment of the patient a single hour.

☞A number of cases of cures performed by the Anti-Dyspeptic Elixer in the vicinity of Pittsburgh can be given.

GEO. W. CARPENTER'S

COMPOUND SYRUP OF LIVERWORT,

A SAFE and Valuable Medicine for Coughs, Spitting of Blood, Consumption, and Liver Complaints.

Most of the medicines made use of for the above diseases are of a stimulating nature, composed generally of Resins and Balsams, in alcoholic solutions, which, although sometimes giving temporary relief, in almost every instance where they are freely used, aggravate the disease, and reduce the strength of the patient.

This article possesses superior advantages over these preparations, its action being of a tonic, invigorating and strengthening nature, thus overcoming the disease by promoting expectoration, and gradully increasing the strength of the patient, and thus, without being attended with any unpleasant effects: it also agrees with the stomach, in a cases, and is a pleasant medicine to take.

TYPE FOUNDRY.

HAVING purchased of Mr. Richard Ronaldson, his long established and very extensive Type Foundry, the subscribers have formed a co-partnership for the purpose of continuing said business, and for the convenience of their friends and patrons, have removed their establishment to a more central part of the city. As it is their intention to keep on hand a good assortment of the best type, and to make such additions and improvements as the taste of the trade and the wants of the country require, they flatter themselves that this establishment will merit a large share of patronage. They have now several founts on hand, which can be furnished at a few hours' notice, and are prepared to make founts of all weights and sizes, from Pearl to 22 lines Pica, including a variety of Ornamental Letter. Their assortment of Cuts, Dashes, Brass Rule, and other Ornaments, will be found to be very extensive, of which specimens will be forwarded to Printers as soon as they can be prepared.

Printing Presses of every description, Printing Ink of the most approved qualities, Composing Sticks, Brass and Common Galleys, Chases, Imposing Stones, Cases, Paper and Press Boards, Standing Presses, Furniture, together with a complete assortment of all articles used in a Printing Office, will be kept constantly on hand.

Small founts, suitable for Book Binders, in great variety, may be had when called for.

Orders from all parts in the Union will be promptly and most carefully attended to, and particularly in supplying *sorts* for all founts furnished by their predecessors, Binny & Ronaldson, and Richard Ronaldson.

PATENT PLANING MACHINE.—The right to use this valuable machine, invented and patented by William Woodworth, and known as Woodworth's Patent Planing Machine, may be obtained on application to the subscriber for the counties of Allegheny, Butler, Beaver, Washington, Green, Fayette, Somerset, Cambria, Indiana, Jefferson, Clearfield, M'Kean, Warren, Venango, Mercer, Crawford, and Erie, in the State of Pennsylvania. That part of Maryland lying west of the Blue Ridge; all that part of Virginia lying west of the Blue Ridge, except the county of Ohio. The whole of the state of Ohio except the counties of Hamilton, Butler, and Montgomery. The whole of the state of Kentucky, except the counties of Jefferson, Boone, Oldham, Gallatin, and Campbell. The whole of Indiana, except the counties of Floyd, Clark, Jefferson, Dearborn, and Switzerland. The whole of the state of Illinois, and the territory of Michigan. Rights to use the machine in that part of the United States, named above, will be sold by the single county or in larger districts. As it is presumed that no one will purchase without seeing the machine at work, a description of it is deemed unnecessary. Should any person, however, wish to purchase, and find it inconvenient to visit the places where it is in operation, a machine will be furnished, warranted to plane, tongue and groove, and bring to an exact width and thickness, a white pine board of 12 feet long, and of any width from 1 to 14 inches, in one minute and ten seconds, or an oak board of the same dimensions in 2 minutes and 10 seconds. Machines may be seen at work in the cities of New Orleans, Washington, Philadelphia, New York, Boston, and others at the south and east, at Wheeling, Virginia, and at the saw mill of Messrs. Irwin & Herron, in this city.

Persons desiring to purchase will have the certificates of scientific and practical men who have seen it at work, in the different places in which it has been put up, forwarded to them. They give their opinion as to the great value of the invention, state the time they have seen boards dressed by this machine, and describe the quality of the work as compared with that performed by hand labor.
